

Become the Art

As a lifelong artist, live painting is so special to me because not only do I get to capture your love on canvas, but I get to share the beautiful process with you and your guests. A live painting can take anywhere from 2 to 5 hours depending on the size and style. I encourage people to engage, ask questions, take photos, and really become a part of the experience. When you see it come together and get to stand there with your family and friends and show it off, you'll feel like royalty.
